

Text Reminders

from *TextMine*®

Do your clients miss appointments? Would you like to confirm appointments without spending hours on the phone?

With TextMine® you can set a time for a reminder to be sent to the client. Simply:

- add an appointment to your online diary
- enter the client's mobile number

A reminder will be sent before the appointment. You can specify how many minutes or hours beforehand.

Text reminders can save staff time, as well as call and mail costs. They help provide a better service, assist with planning and lost business, and engender loyalty in your clients.

For doctors, dentists, hairdressers, restaurants, and anyone who wants to confirm a meeting.
